WELCOME ADDRESS

Dear Friends and Colleagues,

A warm welcome to all the participants of the London 2022 WONCA Europe conference.

It is the first face-to-face WONCA conference since the pandemic entered our lives. We had two virtual conferences in Berlin 2020 and in Amsterdam 2021, and now after almost three years, we are keen to meet again.

We are expecting more than two thousand participants from all around Europe and also from other continents. The vast majority choose to attend the beautiful city of London and be with us physically. But we have also a Virtual Delegate mode so that those of you who are unable to attend the conference in person can join us as well. This conference is a joint RCGP National Conference and WONCA Europe Conference and will give the international as well as the local participants the opportunity to meet each other, and exchange ideas and knowledge. And most importantly, to see old friends after three years of separation.

The program is exciting, with leading keynote speakers, interactive workshops, and many short presentations and posters. We will have also a large exhibition space where you are all invited to visit. As we are recording all the sessions, all participants will have the chance to attend sessions they missed at such a conference with many parallel and interesting workshops and lectures.

See you all in person or virtually in London ExCeL.

Best wishes,

On behalf of the WONCA Europe executive board and all our member organizations, networks, and special interest groups,

Prof. Shlomo Vinker
President - WONCA Europe

WELCOME ADDRESS

Dear Colleagues and friends,

I am delighted to have the privilege to welcome you to the 27th WONCA Europe congress which this year is held conjointly with the Royal College of General Practitioners Annual Conference. This is a very special year for us, as we are celebrating the 70th anniversary of our College.

This conference will be the first international face-to-face event for us as family doctors since the advent of the pandemic, and we have been receiving many enthusiastic messages from colleagues all over the UK and wider Europe in anticipation of the event.

In my capacity as an Officer of the College and Chair of the Host Organising Committee, I reach out to you with a welcome and a promise of an exciting, professionally stimulating and thought-provoking conference. We started preparations in the summer of 2019, after Bratislava, and I have had the pleasure to lead a dedicated and committed team of colleagues, both clinicians and staff, who have worked tirelessly over the last three years and during the pandemic to bring this conference to you.

We are honoured that a number of world-renowned experts have accepted our invitations to join us as keynote speakers to share their research, views and perspectives on health inequalities, sustainability and future of General Practice / Family Medicine. We have received almost 1,500 abstracts with an application to present at the conference, and following a double-blind peer-review process we have put together an exciting scientific programme for you with 12 concurrent streams to reflect the diversity of the discipline of family medicine, the role of the General Practitioner / Family Doctor and demonstrate our commitment to WONCA and to a global approach to healthcare.

Under the overall theme "Innovating Family Medicine - Together for a Sustainable Future", we are aiming to deliver a range of engaging workshops, symposia and state-of-the-art sessions, where leading experts will engage with the delegates to discuss cutting edge developments in Family Medicine, while many speakers will have a chance to present at numerous lectures, science slam and 1-slide-5-minutes talks.

To support medical students who are aspiring GPs and family doctors as well as early career trainees, the RCGP has offered free registration through our Student and Trainee Bursary Scheme, and we were pleased to see huge interest in the scheme.

On behalf of the Host Organising Committee and the RCGP, I hope that you enjoy the conference, have a chance to explore our great city and meet new friends, colleagues and collaborators.

See you at the conference!

With kind regards and very best wishes,

Dr Steve Mowle FRCGP
Chair of the Host Organising Committee

SUSTAINABLE CONFERENCE

CONFERENCE SUSTAINABLE GOALS

- Re-usable bottles for each participant
- The event is paperless (only a pocket programme will be printed out)
- Bags are from special materials (recycled, or eco-friendly)
- 'The WONCA/RCGP Run' to care about the delegates

VENUE SUSTAINABILITY FEATURES

- ExCeL joined the UN Global Compact Programme in 2007
- ExCeL is home to one of the largest commercial wormeries containing 300,000 worms recycling food waste
- ExCeL has operated a zero waste-to-landfill policy since 2012, with 71% of waste recycled in 2021 and the remaining 29% used to create refuse-derived fuels
- In 2019 water fountains were installed throughout the venue and no longer use single-use plastics or plastic straws. As a result, 200,000 fewer plastic bottles every year are used
- 100% of the electricity comes from renewable sources and all gas is carbon offset using UN carbon credits
- 2021, ExCeL saved 16,466,320 litres of water by using the venue's waterless urinals (enough to fill 6 Olympic-size swimming pools)
- 25% of the menus serve plant-based, vegan, or vegetarian options and 80% of the menus use British seasonal fruit & veg
- A living wall' along the promenade has 9,500 plants which remove air pollutants
- More about the Sustainability of the ExCeL can be found here
